

Please do not deregulate the amount of media companies sole corporations can own. In short, we need MORE DIVERSITY in programming than the homogenous, right-leaning majority there is now. I think a prime example of what's wrong with media deregulation (and the effects of the 1996 deregulation) is the horribly slanted coverage given to the recent Iraq War. Do not allow our freedom of speech to be curtailed by allowing only a few corporations (like Clear Channel) to own vast majorities of media outlets. More diversity and viewpoints in the media prompts educated decisions!!!
